Dear Ms. Schindler:

I'm opposed to SB 497 as unnecessary. A woman's right to choose her own health and reproductive care without harassment is the concern of MCA 45-8-110; those who exercise their right to protest do so with a very clear understanding of their spatial restrictions, as the code lays it out. Mr. Schockley's bill addressing protests of protests is a frivolous addition for the sake of making a statement about abortion, a legal medical procedure. Please don't spend much of the taxpayers' time and money on this non-issue.

Thank you for forwarding this public comment to the Senate Judiciary Committee members for me.
